

Y-E-S #18

Scores for Studios

Kaj Duncan David and Assaf Gidron

Text scores describing how to create studio compositions. From simple studio techniques to more involved streaming-platform hacks, the 10 scores are simple recipes for electronic music pieces.

Duration: variable

Setup: music studio (or any collection of music gear that will allow you to record and edit audio). If you do not have a DX7, you can use a free software emulation called Dexed <https://asb2m10.github.io/dexed/>. Alternatively, feel free to use any other favourite synth.
